

INNO VET

FOSTERING INNOVATION IN VET THROUGH THE EXCHANGE OF GOOD PRACTICES

INNOVET - "Fostering INNOvation in VET through the exchange of good practices" is a KA2 project co-funded by the Erasmus program with agreement no.: 2020-1-BE202-077478

AIM

The INNOVET project wants to develop and test a format of transnational conference where VET practitioners from all over Europe can develop innovation starting from the exchange of practices on themes at the top of the EU agenda with a particular emphasis on: teachers and trainers' professional development and an intense exchange of practices during transnational events.

OBJECTIVES

INNOVET will focus on two aspects that are considered of primary importance: a transversal subject - **Internationalisation**, and a vocational subject - **Technology and Industry 4.0**.

INNOVATIVE ELEMENTS

The innovative aspects being proposed by INNOVET are related to two main aspects:

- Deepen the analysis of two top priority areas in the field of VET
- Deliver a format for a one-stop-shop conference, where schools can exchange good practices and collaborate in joint follow-up initiatives
